RE: Facility Located at: 801 Allen Avenue  
Glendale, CA 91201

Dear Mr. Stubbs:

This is to confirm our phone conversation of this afternoon in reference to a letter ITT received from Mr. Jerry Clifford of the EPA, dated April 17, 1991. Mr. Clifford is requesting additional information on the property mentioned above pursuant to CERCLA and RCRA authority.

Please note that Mr. Clifford's letter was addressed to ITT General Controls in Santa Clarita, CA. As discussed during our phone conversation, correspondence concerning this property should be addressed to my attention, in care of ITT Aerospace Controls, 1200 S. Flower Street, Burbank, CA 91502. ITT General Controls has not manufactured at the above address since 1986. This change should prevent any future delay with mail deliveries.

Further, as also discussed during our phone conversation, ITT understands that you have agreed to extend the due date for our response an additional 30 days. Your correspondence was forwarded to us and was received on April 29, 1991, and gave us 35 days in which to respond. ITT understands that this extension allows us a total of 65 days from the date of receipt to respond. Unless otherwise instructed, we will submit a response by July 3, 1991.

As also discussed we will include in our response an index of documents submitted to RWQCB during the course of our investigation. We understand that at this time you are not requesting copies of these documents, only an indexed listing. We will also attempt to streamline this third submission by referencing unchanged information as provided in or previous responses.

Should you have any questions, feel free to contact me at (818) 953-2119.

Yours Truly,  
ITT Aerospace Controls
